

## Investment strategy: WI Bonds

Investment managers: Dan Wallick, Wade Stinnette

Asset Class & Objective	The WI Bond's overall portfolio style is best defined as fixed income. Our Bond portfolio consists of primarily of government bonds (traditional, inflation-protected and international) and corporates (both US and international). The durations, average credit quality and actual allocations are managed based on interest rate expectations with market and economic indicators.
Single Security Index	iShares Core Aggregate US Bond Index
Portfolio Characteristics	<ul style="list-style-type: none"><li>■ 10 – 30 positions</li><li>■ Low turnover</li></ul> May contain: <ul style="list-style-type: none"><li>■ Corporate and Government Bonds</li><li>■ US and International Bonds</li><li>■ High yield Bonds</li><li>■ Preferreds</li><li>■ Convertibles, Hybrids and other fixed income type securities</li></ul>
