

Investment strategy: WI Fidelis

Index manager: Dan Wallick

<p>Asset Class & Objective</p>	<p>WI Fidelis’ overall portfolio style is best defined as Small- and Mid-Cap Blend with a concentration on capital appreciation. WI Fidelis’ goal is to outperform its benchmark in all market environments. WI Fidelis portfolio is a core, “all-weather” strategic holding consisting of the Inspire Fidelis Multi-factor ETF (NYSE: FDLS) which holds 80-100 stocks, providing multi-dimensional diversification, including high exposure to the style factors Quality, Value and Momentum, all of which have shown a tendency to outperform the overall market in the long run. The actual weightings at ETF launch were 34% Quality, 33% Value and 33% Momentum. Holdings are rebalanced and reconstituted quarterly. For more information, visit WIFidelisIndex.com. Prior to ETF launch, the WI Fidelis strategy was managed through GIPS® compliant composite of SMAs.</p>

Investment strategy: WI Tactical Asset Allocation

Investment managers: Dan Wallick, Wade Stinnette

<p>Asset Class & Objective</p>	<p>The WI Tactical Asset Allocation overall portfolio style is best defined as multi-asset tactical. The Asset Allocation model's goal is to outperform its benchmark in all market environments. This portfolio seeks long term capital appreciation with a material portion of the portfolio being systematically invested in futures contracts in an attempt to create an absolute return profile, that also has a low correlation to equities, and can provide support in risk-off events. WITAA may include Inspire Fidelis ETF (FDLS) and/or Inspire's International Fund (WWJD) as part of its equity allocation.</p>
<p>Strategy Custom Benchmark</p>	<p>62.5% Barclays iPath DJ UBS Commodities ETF (DJP) / 37.5% SPDR Barclays 1 – 3 month T-Bill ETF (BIL)</p>
<p>Single Security Benchmark</p>	<p>SG CTA Index (commodity trading advisors/managed futures strategies [CTA])</p>
<p>Portfolio Characteristics</p>	<ul style="list-style-type: none"> ■ Less than 25 holdings (each with diverse underlying holdings) ■ Complies with WI faith-based and biblically responsible investment guidelines <p>May include exposure to:</p> <ul style="list-style-type: none"> ■ Stocks ■ Bonds ■ Commodities (agriculture, metals, energy) ■ Currencies ■ Managed futures, which can hold both long or short positions of any of the assets listed above
<p>Investment Process</p>	<p>Wallick Investments' security selection process evaluates current macro-economic data listed on page 12 to determine actual exposure to each investment solution.</p>
<p>Sell Discipline</p>	<ul style="list-style-type: none"> ■ A change in macro-economic data
<p>Risk Management</p>	<ul style="list-style-type: none"> ■ The standard deviation for this portfolio will customarily range between 5 to 15.

Investment strategy: WI Bonds

Investment managers: Dan Wallick, Wade Stinnette

Asset Class & Objective	<p>The WI Bond's overall portfolio style is best defined as fixed income. Our Bond portfolio consists of primarily of government bonds (traditional, inflation-protected and international) and corporates (both US and international). The durations, average credit quality and actual allocations are managed based on interest rate expectations with market and economic indicators.</p>
Single Security Benchmark	iShares Core Aggregate US Bond Index
Portfolio Characteristics	<ul style="list-style-type: none">■ 10 – 30 positions■ Low turnover <p>May contain:</p> <ul style="list-style-type: none">■ Corporate and Government Bonds■ US and International Bonds■ High yield Bonds■ Preferreds■ Convertibles, Hybrids and other fixed income type securities
Investment Process	<p>Wallick Investments' security-selection process evaluates current macro-economic data listed on page 12 to determine adjustment to portfolio credit quality and duration— i.e., exposure to interest rate risks.</p>
Sell Discipline	<ul style="list-style-type: none">■ Change in macro-economic data■ A negative change in a companies corporate or moral stewardship■ Higher ranking choice
Risk Management	<ul style="list-style-type: none">■ Volatility will be limited to 150% of the single security index■ Duration will be limited to 150% of the single security index
